

**Oral 1: Your company and your job**

With the help of a powerpoint, you will present your company and your job.

The presentation must not last more than 4 minutes, but not less than 3.

You will need to choose what information you deem relevant to share and how a powerpoint can help.

Your powerpoint will be sent to me via email at the end of today's class so that I can have it on my screen too on the day of the oral. The pdf format is preferable to avoid any problems (and also I will use a tablet for the ppt and my computer to see you). If you haven't sent your powerpoint on time, you will speak without (and lose points).

Your presentation must have an introduction, a plan, that you will present, and a conclusion.

The final mark will take into account the content and relevance of the presentation, the quality of the grammar, the vocabulary used, the quality of the powerpoint and your communication skills.
